

JFC report (20260308)

We went to Isla Verde with three of CEC volunteers today.

We bought 12packs of cheese cakes (for 120people)at SM seaside from the donations and we distributed them.

This is the fourth time we have provided support in this disaster area.

The situation was same as third time, but because of donations from CEC volunteers and our snacks, children were very happy.

One of the victims ,who lost her husband because of Tino,gave me Mangoes.
I really know how hard her situation is,but she is really kindhearted.

I think buying something in Sarisari in this area is big help for them.next time,I wanna try to buy donations from Sarisari in these disaster areas.

This picture is broken flood control, which I took today.

Thank you so much for all your support!!
